# Jetfly

**W**ith 20 years of experience and 150,000 hours of flight time, Jetfly is a leader of fractional ownership in Europe for both business and private aviation.

The fleet of 60 Pilatus aircraft is now the largest in the world. It comprises 48 PC-12s and 12 PC-24s.

For medium-range destinations, Jetfly offers the luxury to fly in Pilatus' newest super versatile jet, the PC-24. Within 3 years of its launch, the fleet has grown to 12 PC-24s with the unique Philippe Starck livery that has proven to be very popular amongst Jetfly's 400 co-owners.

Jetfly is headquartered in Luxembourg and employs 350 people, including 150 pilots.

*Jetfly*

The PC-24's Advanced Cockpit Environment (ACE) sets the standard for high-tech simplicity. Powered by Honeywell's state-of-the-art Primus Epic 2.0 avionics suite in a four 12-inch screens configuration. The PC-24 ACE Cockpit is equipped with Synthetic Vision System, Autothrottle, Graphical Flight Planning, Traffic Collision Avoidance System (TCAS II), and Localiser Performance with Vertical (LPV) guidance capability.

With the Pilatus PC-24, Jetfly can connect both international airports as well as small airfields closer to co-owner's final destinations. Designed as an "off-road" Business Jet, the PC-24 allows access to over 3000 airports and small airfields, including unpaved runways.

## A LIGHT JET WITH THE OVERSIZED CABIN OF A MIDSIZE JET

### PASSENGER CAPACITY

8 Passengers

Double Club Configuration

### BAGGAGE CAPACITY

175 ft<sup>3</sup> (cubic feet)

16 Bags (65 kg / Bag)

### CABIN AMENITIES

Service Attendant

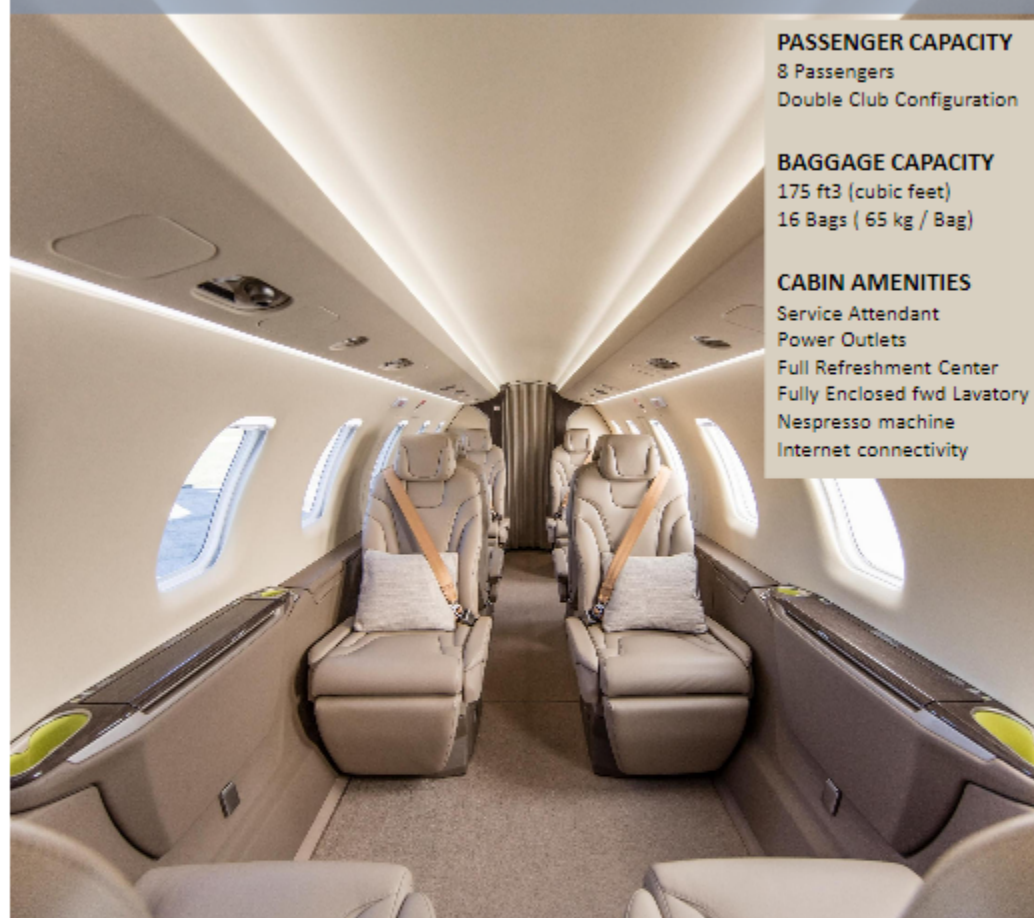

Power Outlets

Full Refreshment Center

Fully Enclosed fwd Lavatory
