

PILATUS PC-12

The magic plane

*Jetfly*

# A WORLD CLASS AIRCRAFT

The Pilatus PC-12 is one of the most popular turbine-powered business aircraft on the market. Fast and versatile, it offers a level of comfort and luxury that can be found on larger business jets. It can access over 3 000 airports and small airfields in Europe, giving you a unique level of access for business or personal use.

## A SPACIOUS CABIN

The PC-12 has a cabin two and a half times larger than a very light jet and comparable to mid-sized jets. It has 6 passenger seats in an executive layout and can be reconfigured at any time into an 8 seater.
